Are you supposed to see the packages?

No because we've never seen the packages. We saw some random addendum that Kathy Nuebel Kovarik sent us as a heads up that apparently didn't match the recommendations per an exchange with her and OGC we saw via email.

Any flags?

And I know ASI is out of pocket today, but in the event that there is time on the plane home tonight for her to review, that of course would be welcome by USCIS and OGC.

Hey y'all,

The TPS packages for Sudan and South Sudan are making their way to S2's office, they are fairly self-explanatory. We will likely need S1 sign off tomorrow at some point. Just want to flag for awareness.

Best,

Gene
